What This Course Is About

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course is computer-assisted; for assistance, contact [Wake Tech Help Desk](https://www.waketech.edu/help-center/its/topics) (opens in new window) at <<https://www.waketech.edu/help-center/its/topics>>.

Wake Tech is committed to helping you develop life skills which are highly sought after by employers and four-year universities, including critical thinking/ problem solving, oral and written communication, and/ or quantitative literacy.

Upon completion of this course, you will be able to:

1. Identify an appropriate topic about which to write or devise an appropriate approach to an assigned topic.
2. Demonstrate writing as a recursive process.
3. Demonstrate writing and inquiry in context using different rhetorical strategies to reflect, analyze, explain, and persuade in a variety of genres and formats.
4. Students will reflect upon and explain their writing strategies.
5. Compose texts incorporating rhetorically effective and conventional use of language.
6. Compose standard academic essays that develop approved topics, include substantive thesis statements, and consist of introductory, body, and concluding paragraphs.
7. Use standard written English that includes a minimum of spelling errors, sentence fragments, comma splices, fused sentences, and agreement errors.
8. Locate, evaluate, and incorporate relevant sources with proper documentation.
9. Demonstrate the critical use and examination of printed, digital, and visual materials.
10. Collaborate actively in a writing community.

Requisites

Prerequisite (must be completed before taking the course):

Take One: DRE-097, ENG-002, ENG 025, or BSP-4002 - Must be completed prior to taking this course.

Co-Requisite (must be completed before taking this course OR while taking this course): Take ENG-045- Must be taken either prior to or at the same time as this course.

Students who do not meet course prerequisites will not be allowed to remain in the class. Students should note that receiving a grade of F in a prerequisite course does not fulfill the prerequisite.

Important Information for Students Taking ENG 111 with ENG 045

- Students taking this combination of courses cannot withdraw from one without being withdrawn from the other. This is true even if you elected to take ENG 045 and it was not originally required of you. For example, John Doe enrolls in both ENG 045 and ENG 111. If he withdraws from ENG 045, he is automatically withdrawn from ENG 111 (and vice versa).
- Earning a passing grade in one class does not guarantee a passing grade in the other. Please understand that assignments completed in ENG 045 and ENG 111, though related, are graded independently and according to different competencies.
- Wake Tech offers a wide variety of support services. While your first stop should always be with your instructor, students in ENG 045 and ENG 111 may visit the department's English TLC and the Writing TLC. To ensure grades earned are reflective of your writing abilities, neither your instructors (045/111) nor the tutors at the centers will simply proofread and edit your work for you.

What You'll Need: Textbook & Materials

Eagle Advantage is Wake Tech's textbook program for students in degree programs, excluding Career & College Promise (CCP) and Cooperative Innovative High School (Early College) students. The program ensures all required printed and digital textbooks are bundled and ready for pickup or delivery on or before the first day of class - saving you time and money and ensuring you're ready to learn on Day One.

If you are opted-in to Eagle Advantage, visit the 'Course Materials-BibliU' link in Blackboard for more information about the textbook details for your course. You can also find out more information by visiting [FAQs and Troubleshooting – BibliU \(https://support.bibliu.com/hc/en-us/sections/360004011038--FAQs-and-Troubleshootin\)](https://support.bibliu.com/hc/en-us/sections/360004011038--FAQs-and-Troubleshootin).

If you opted-out of Eagle Advantage, you are responsible for purchasing any of the required texts/materials for this course. For more information about Eagle Advantage, contact our [Bookstore \(https://www.waketechcampusstore.com/SelectTermDept\)](https://www.waketechcampusstore.com/SelectTermDept).

✓ How Your Work will be Evaluated: Grading Information

Criteria

Assignments, Exams, and Activities

Evaluation Type	Weight
Project 1 (Out-of-class Essay)	15%
Project 2 (Out-of-class Essay)	20%
Project 3 (Out-of-class Essay)	25%
Assignments Class and homework, discussion boards, unit tests/quizzes, etc.	25%
Faculty Choice [Annotated Bibliographies for Projects Two and Three, worth 7.5% each]	15%

Breakdown

Course Requirements

1. Students will write and will be graded on 3 projects/essays (a minimum of 3500 words). Each essay should address a specific purpose (examples include but are not limited to expressing an opinion, explaining a process, solving a problem, informing, evaluating, analyzing, and supporting an assertion with evidence). Students will adopt appropriate modes of development to achieve their purpose (examples include but are not limited to comparison/contrast to evaluate, exemplification to support an assertion, etc.). They will write consistently for an appropriate audience, considering that audience's needs and expectations.
2. Students will write at least two essays that use direct textual support. Facts and ideas from sources must be incorporated into the essay in the form of accurate quotations, paraphrases, and summaries that are documented using MLA style.

3. Students will take part in classroom activities (or for online classes: discussion boards, blogs, journals, etc.) and complete homework assignments that develop their awareness of their own writing errors and motivate them to correct and avoid these errors, relying on Rules for Writers as a guide.
4. Students will demonstrate their understanding of MLA documentation guidelines through the use of in-text citations and properly formatted Works Cited pages.

Grading Scale

This course uses a 10-point grading scale.

- A: 90% and up
- B: 80% - 89%
- C: 70% - 79%
- D: 60% - 69%
- F: < 60%

Grades and Feedback

Students often have questions regarding evaluation of work. Instructors hold regular office hours, either on campus or online, to assist students with questions about the course or evaluation of submitted work. Students should always work first with course instructors to find answers to questions or solve issues with evaluation prior to contacting the Department Head or Associate Department Head (if applicable). After every effort to resolve issues in this manner, students may contact the Dean of the Division of Liberal Arts.

Late Work Policy for This Course

- Students can submit high-stakes projects at least one day late (24 hours).
- Major projects will be accepted up to 24 hours late with a 15-point penalty.
- Low-stakes assignments will be accepted up to 24 hours late without penalty

* How I Will Help You Succeed: Instructor Policies & Procedures

How to Succeed in This Class

Students who come to each class prepared to learn, participate in activities, and complete assignments, and have good study habits will succeed in this course. Should you have any concerns about your success in this course, please contact me as soon as possible.

Communication Expectations

When emailing, please be sure to include your course and section number. You can also communicate with me in-person during office/student hours. Please use your provided my.waketech.edu e-mail account for all school-related correspondence. Due to security concerns, any emails from a personal account may not be delivered successfully.

****Email/Teams response time:** During the week, I will reply to emails within 24 hours. If I do not respond within 24 hours, please contact me again to follow up. On the weekends, my responses may be delayed.

Attendance

- Attendance in a hybrid or blended class is demonstrated by submitting required attendance-designated assignments in Blackboard and by attending scheduled class meetings.

The Wake Tech Community College Attendance Policy states:

Wake Tech expects students to attend at least 90% of all scheduled class meetings. If a student's consecutive absences from class exceed 10% of the total instructional time, the student has not communicated with the instructor and the student is currently not passing the class, then the faculty member should withdraw the student from the class.

Consistent with a culture of care, faculty have the discretion to work with students who express a need for reasonable attendance accommodation. Similarly, students must take personal responsibility for their attendance and use discretion when making schedule choices to meet the demands of work, family and other responsibilities.

Extra Credit Policy

Extra Credit Points Policy

Here's how extra credit works this semester, explained step by step.

Extra Credit Points: The Basics

- You can earn extra credit for each major unit this semester. We have **three** major units, so you can earn up to **six (6) extra credit points** in total.
- You can earn up to **two (2) extra credit points per unit**.
- Extra credit points **expire when a unit ends**. A unit ends when you submit the Project for that unit.
- Because these chances are available all semester, I do not offer any additional extra credit opportunities.

What Are Extra Credit Points?

- Extra credit points are bonus points you can add to any assignment(s) you choose. You earn points throughout the semester, but you apply them at the end of the semester.
- It's your responsibility to email me and tell me which assignment(s) you want the points applied to.
- Yes — you can apply extra credit points to essays!
- Example: If you earn all six (6) points, you could raise a single essay's grade by six (6) points. Or you could split them — for example, raise one essay by four (4) points and another by two (2) points. You choose how to combine your points, and you can apply them to any graded assignment except the final exam.

What's the Benefit?

- Extra credit points can be applied to your major essays to raise their grades.
- Essays are worth a large share of your course grade (15%, 20%, or 25%), so raising an essay grade can raise your overall course grade.

How Do I Earn Extra Credit Points?

- It's simple: visit the English TLC and/or the Writing TLC, **two times (2x) each per unit**, either in person or virtually.
- You can earn extra credit during Units 1–3. Each unit is a fresh chance to earn points.
- You must visit the **same** center twice within a unit to earn one (1) extra credit point.
- TLC workshops count toward extra credit.
- Once a unit ends, that unit's extra credit chances expire. A unit ends when you submit the Project.

Extra Credit Formula

Here's the formula for earning extra credit points per unit:

- 2x visits to the English TLC = 1 extra credit point
- 2x visits to the Writing TLC, workshops included = 1 extra credit point

If you max out your extra credit every unit, that adds up to six (6) points total!

How Do I Submit Extra Credit?

- Email your verification documents to me as attachments. My email is: abkirby2@waketech.edu
- Send all your documents for a unit in **one email**, at the end of that unit.
- In your email subject line, include your name, section number, and "Extra Credit."
 - Example: Smith-ENG-111-4149-Extra Credit
- At the end of the semester, email me to tell me how you'd like to apply your extra credit points.

Early Bird Essay Submissions

The Early Bird Special

Turn in your essay early and earn extra time (and support) to make it even better.

Why This Policy Exists

- The English Department wants you to practice reflection and revision. Revision is a key part of the writing process, but it can feel unimportant if it doesn't change your grade.
- This policy rewards revision. It gives you extra time to improve your essay and to visit a tutoring center for help.
- Practicing this process also builds skills you'll use for life: time management, goal setting, and follow-through.
- Early bird students show what community college students are like — determined, committed, and always growing.

What Is the Early Bird Special?

- Submit your **fully completed** essay **two or more days before the due date**, and you earn early bird privileges.
- Usually this means submitting on Friday instead of Sunday — but you can submit even earlier if you'd like.
- If you qualify, you unlock an exclusive benefit: **four extra days** to revise and *resubmit* your essay after the original due date.
- You will be graded on your resubmission rather than your early submission, giving your essay real benefits from revision.

How Do I Qualify?

- Submit a fully completed copy of your essay two or more days before the due date.
- “Completed” means a finished draft – not an unfinished, rushed, or last-minute attempt.
- I'll check your early submission to confirm it's complete.
- If I decide your submission isn't complete, I can reject it and revoke your early bird privileges.

What Do I Get?

- **No late penalty** on your early bird resubmission.
- Extra time to revise on your own and/or visit the English TLC and Writing TLC for tutoring.
- Yes – you can meet with a tutor during your early bird window **and** earn extra credit for those visits. (See the Extra Credit Points Policy for details.)
- You are graded on your *resubmission* rather than your early submission, meaning your essay's final grade will likely benefit from the changes you made during the early bird window.

One Thing to Know

- During your early bird window, don't expect feedback from me outside my regular English TLC hours.

Example

Let's say Project 1 is due Sunday, September 18th, by 11:59 PM. Here's how to take advantage of the Early Bird Special:

1. Submit a completed copy of Project 1 to Blackboard by Friday, September 16th, at 11:59 PM (or any time earlier that week).
 - a. Your due date now extends four days past the original due date – so your new due date is Thursday, September 22nd, by 11:59 PM.
2. Use your four extra days to revise on your own and/or visit the English TLC and Writing TLC for tutoring.
 - a. Revising usually makes your essay stronger, so your chances of earning a higher grade go up. And if you visited a tutoring center, you may have also earned extra credit. (See the Extra Credit Points Policy for details.)
 - b. Remember, you will be graded on your *resubmission* rather than your early submission so that your essay can benefit from revision.

 How the Department Will Help You Succeed:
Department Policies & Procedures

English Department Policy Regarding Student Work

- The English Department requires that all final drafts of out-of-class essays be typed (computer-generated). A rough draft of all out-of-class essays must also be turned in (or for online classes, submitted in a file format that is compatible with Microsoft Word).
- Instructors may also require that out-of-class essays be submitted as electronic files. Essays may be checked electronically for plagiarism.
- Instructors may require that students submit copies of all sources used in researched essays.
- All papers will be retained by the instructor for one semester.
- All grades are based on the ten-point scale, according to department policy.

Academic Integrity Statement

Each student at Wake Technical Community College has the responsibility of ensuring the integrity of their own work. [Wake Tech's academic integrity policy](#) (opens in new window)

URL: <https://www.waketech.edu/catalog/student-code-conduct-rights-and-responsibilities> specifically prohibits plagiarism, self-plagiarism, and cheating of any kind. In other words, any work you submit in this class must be your own. Examples include, but are not limited to, thesis statements, outlines, bibliographies, essay drafts, blog or discussion board posts, wiki contributions, reflective writings, presentations, and more. In addition, information from outside sources included in your work must be properly documented using the appropriate editorial style.

Using a product or technology (ChatGPT, Dall-E, etc.) in the course to create or aggregate synthetic content for the course, such as any course writing, brainstorming, generating a draft, a works cited source bank, answering discussion groups, collaboration, group work, or other attendance activities, is considered academic misconduct similar to plagiarism or violations of the student code of conduct. Unless expressly permitted by your instructor, suspected cases of AI-generated submissions may be reported to the Student Code of Conduct office as a violation of the college's Academic Integrity Policy.

Your instructor will inform you of the requirements for individual assignments. To avoid violating this policy, please seek guidance from your instructor if you have questions. Please also refrain from seeking help from sources of collaboration that have not been sanctioned by your instructor. Violation(s) of this policy range from a loss of points on the assignment to a zero on the assignment to an F in the course as well as sanctions from the institution that may be recorded on your permanent college record.

Instructors reserve the right to require a meeting with a student before determining the final grade for an assignment when inappropriate AI use is suspected. This required meeting may either be in person or on Teams (cameras and recording on). If students have any questions about AI use, they should ask their instructor.

Rounding Policy

Final course grades (weighted total) will be determined by the following method:

- When the decimal grade point is greater than or equal to "0.5", the grade is to be rounded up to the nearest whole number. For example, an "89.56" would be rounded to a "90".

- When the decimal grade point is less than “0.5”, the grade is to be rounded down to the nearest whole number. For example, a “69.49” would be rounded to a “69”.
